DIM GLORY OF THE WAR

Disputes Growing Out of Contentions Threaten to Create Strife,

A SEARCHING INQUIRY INTO CHARGES WILL BE MADE.

Washington, Sept. 6—Special—The disputes growing out of the conduct of the war threaten to dim many of the glories of achievement. There are scores of these, more or less conspicuous, but those that concern people high in authority will attract the most attention. These are the controversies between Gen. Miles and Secretary Alger, and the scandals growing out of the mismanagement of the military camps. The first of these is smoldering, and may not break out till congress meets. But there will doubtless be a searching inquiry into the camp abuses before long. Sick soldiers are returning to their homes with tales of suffering and hardship which appear to many to have been unnecessary afflictions. The location of camps in unhealthy localities has provoked widespread criticism, and some one will be held responsible. The lack of proper supplies and nurses for the sick, when the country was abundantly able to furnish them, calls for much condemnation, and the relatives of those who have suffered by neglect and mismanagement do not propose to let the matter rest. It is probable that the president and secretary of war will start an inquiry soon, but if they do not congress will be importuned to take the matter in hand. The navy department has escaped save for the spasm of jealousy between the partisans of Sampson and Schley in which the officers in interest have taken no part. That good will come to the military service from the shaking up affairs are likely to receive does not admit of a doubt. There will be no haste in the inquiries, and the utmost care will be taken that everything done will be directed for the benefit of the service.

May Exchange Places.

Washington, Sept. 6—Special—While there are no indications that the president is personally dissatisfied with Gen. Alger's administration of the war department, it is hinted that he will not be averse to that gentleman's retirement from the cabinet provided he does so voluntarily. A plan is under discussion here that promises to bring this change about. It involves an exchange of places by Gen. Alger and Senator McMillan, the latter to become secretary of war and the former senator from the state of Michigan. Mr. McMillan, it is said, is willing to retire provided he can round off his public career with an honorable position in the cabinet, and Gen. Alger is equally willing to step into Mr. McMillan's shoes. It is not unlikely that the exchange will be made, and every one except Gen. Alger's enemies, whose wishes have not been consulted, will be pleased.

Wheeler Will Command.

Montauk, Sept. 6—Special—Although Gen. Shafter will be the de jure commander of the camp here by virtue of his rank, he has given it to be understood that he will not interfere with Gen. Wheeler's orders, past or future, as that officers' course meets his approval. This will leave Gen. Wheeler in virtual command, a fact that gives great satisfaction to the men here, as Wheeler's consideration for their comfort has made him extremely popular.

Safely Removed.

Newport, R. I., Sept. 6—Special—The one hundred and twenty five men who were on the steamer Lewiston when it went ashore at Point Judith at midnight, were placed aboard the train this morning and taken to Boston. None of the sick soldiers suffered any serious consequences from the shock and removal from the damaged vessel.

The Future of Alger.

PORTO RICO IS PLEASED

Both Natives and Spaniards Welcome the Conquerors.

LOOK FOR A NEW ERA OF INDUSTRIAL PROSPERITY.

Washington, Sept. 6—Special—While the government may experience considerable trouble in restoring and maintaining order in Cuba, affairs are in a much more satisfactory state in Porto Rico. There the advent of the Americans has been hailed with unbounded satisfaction both by the natives and Spaniards. There is no bitterness among the latter towards their conquerors. They were, in fact, willing captives. Even the soldiers fraternize with the American blue-coats. The natives want freedom from Spanish dominion, and will gladly accept the position of a province in the American union, and are willing to forgive their late oppressors provided they are placed in a position where they will be powerless to exercise dominion over them in the future. People generally, especially the planter and mercantile classes, look for a great revival of prosperity, and will welcome the advent of American energy and capital.

Cobreco's division came in from their camp near El Cobre and surrendered their arms to Gen. Lawton. The men said they were hungry and desired to go to work. NEWS FROM NEARBY NEIGHBORHOODS

INCOMINGS AND OUTGOINGS OF ROCK COUNTY PEOPLE.

Gossip of a Personal and Business Character Gleaned By Gazette Reporters in the Garden Spot of Wisconsin—Religious and Social Notes.

(THE GAZETTE AGENCY, W. W. CLARK, Manager, Milton, Wis., Sept. 6, 1898.)

A telegram was received here Monday forenoon announcing the sad fact that Walter S. Alexander, only brother of A. T. Alexander, was dead. Deceased had been sick some little time but his recovery was expected, hence his death was a great shock to his Milton relatives. Mr. Alexander came to Milton with his parents, Mr. and Mrs. John Alexander, in 1844 and after reaching manhood began his career as a railroad man. He rose rapidly and held many important positions in the service of western roads, the more responsible being that of general passenger and freight agent of the St. Paul and Manitoba, now the Great Northern, presidency of the St. Paul and Duluth, and traffic manager of the Northwestern association. At the time of his death he was the private secretary of the receiver of the Union Pacific company, and was to have been given a very desirable position in the service of the reorganized company. He stood very high in the esteem of western railroad officials, not only in his official capacity but as a man and a friend, and here in his old home which he delighted to visit as often as circumstances permitted, he was always assured of a warm welcome from old time friends and neighbors, none of whom, however humble and lowly, ever missed a warm hand clasp and kindly greeting from "Walter." The bereaved family have the heartfelt sympathy of this community in their great loss, of one who was a loving husband, kind father, affectionate brother and nephew. The remains will be brought here for burial Wednesday morning and the funeral services will be held at 10 o'clock that afternoon from the house.

The caboose struck the rear portion of the wagon, which speedily became kindling wood, while the horse ran away with the front wheels and a portion of the box dragging after it. The boy was thrown some distance, but escaped serious injury. H. B. Marshall's Uncle Tom's Cabin company was here Monday, giving their exhibition under canvas. Indian Ford.

Indian Ford, Sept. 6.—The little village of Indian Ford, ten miles from Janesville and two and one half miles from Edgerton was aroused from its usual Sunday lethargy by the cry that a man had fallen in the river. It developed that William Cornell, from Edgerton had come to the Ford, in company with George Davey and a friend from Rockford to fish. Arriving at the Ford, Mr. Cornell went to the wagon shop of W. H. Price and borrowed a couple of fish poles. He was going on a timber in front of the chute, a favorite seat with the fishers, when he lost his balance and fell into the chute and was immediately carried down by the rushing water. Statements differ as to his being seen to rise, one man saying he saw him once and some children stating they saw him twice, but before help could be secured he went down to rise no more. So short a time had elapsed since reaching the Ford that Davey had not yet left the buggy to go to the river. Boats were immediately manned, hooks secured and a thorough dragging of the river about the place begun and continued until darkness and a coming storm put an end to the search. Next morning work was resumed, and at about half past seven they were rewarded by securing a grip on the drowned man's clothing and brought him to land. A jury was called by U. S. Thomas consisting of Henry Brack, H. H. Dickson, Nelson Pretendall, John Kurtz H. Thomas, J. L. Chamberlain who found the cause of death to be accidental drowning.

TROLLEY CAR CUT IN TWO.

Fearful Disaster at Cohoes, New York.

EIGHTEEN PERSONS ARE DEAD.

Ten Killed Outright and Eight Others Die Afterward—Engineer of the Train Was Unable to Avert the Accident—Names of the Dead.

Cohoes, N. Y., Sept. 6.—Shortly before 8 o'clock Monday a trolley car of the Troy City Railway company was struck by the night-boat special of the Delaware & Hudson railroad at a crossing at the west end of the Hudson river bridge, which connects this city with Lansingburg, and its passengers were hurled into the air. Ten of the thirty-five passengers were killed outright, eight died shortly afterward and at least ten of the remainder will die.

The following bodies have been identified:

ARCHIE CAMPEUX of Cohoes.
JAMES TEMPLE of Lansingburg.
EDWARD BARNEY of Cohoes.
MRS. JOHN CRAVEN of Cohoes.
MISS KITTIE CRAVEN of Cohoes.
JOSEPH SENZ of Cohoes.
NELLIE SWEET, 15 years old, of Cohoes.

MRS. ELIZA MELROY of Cohoes.
MRS. JOHN W. SUTCLIFFE of Cohoes.

The injured are:
Isaac Shaw of Cohoes; skull fractured.

George Angers of Cohoes, injured internally.

John W. Sutcliffe of Cohoes, head cut and ribs broken.

Miss Lizzie Melroy of Cohoes, leg broken.

Mrs. Lizenesse of Cohoes, collar bone fractured and several ribs broken. She had a baby in her arms. It was crushed and will die.

Emma Devashire of Cohoes, skull crushed.

Mrs. James Temple, Lansingburg, jaw fractured and injured internally.

Mrs. Ira Dewey of Cohoes, head crushed.

The cars entering the city from Lansingburg were crowded with passengers returning from a Labor day picnic at Rensselaer park, a pleasure resort near Troy. Car No. 192 of the Troy City railroad was the victim of the disaster. It came over the bridge about 7:35 o'clock.

The crossing where the accident occurred is at grade. Four tracks of the Delaware & Hudson road, which runs north and south at this point, cross the two tracks of the trolley road. It was the hour when the night-boat special, a train which runs south and connects with the New York city boat at Albany, was due to pass that point.

The motor car was struck directly in the center by the engine of the train, which was going at a high rate of speed. The accident came without the slightest warning. The car was upon the tracks before the train appeared. When the collision occurred the motor car parted in two, both sections being hurled in the air in splinters. The people were torn and mangled. Those in front met the worse fate. Every person in that section of the car was killed. Bodies were hurled into the air and their headless and limbless trunks were found in some cases fifty feet from the crossing.

The majority of the passengers of the trolley car were young people. There were many women among them. Within ten minutes after the collision fully one-half of the population of the city was surging about the vicinity in an endeavor to ascertain if relatives were among the unfortunate.

The injured were taken to the city hospital and to the Continental knitting mill, the former not having sufficient ambulance service to care for them all. The corpses were placed in boxes and taken to a neighboring mill shed. Many of them were unrecognizable.

The train of the Delaware & Hudson road immediately after the accident proceeded to Troy. The engineer stated that he did not see the car until he was upon it. He tried to prevent his train from striking the car, but his efforts were fruitless. He was some minutes late and was trying to make up lost time.

Unemployed Officers.

Madrid, Sept. 6.—The difficulty of finding members of the peace commission and the impending meeting of the cortes not only cause anxiety to the Spanish government, but an even greater danger exists in the 7,000 officers from the Antilles who are now without commands. This is one of the reasons why the Spanish troops in the Philippines are to be left there.

Payment of the October coupons, representing interest on the Cuban debt, is now assured, but it is the last payment of the sort which Spain will make, according to the opinion of Sagasta.

University of Chicago Is Hit.
Mount Vernon, Ill., Sept. 6.—The Salem Baptist Association has been in session here for several days. Monday a resolution was adopted requesting that baptists refrain from patronizing the University of Chicago, alleging that its views were so liberal that a good baptist could not conscientiously support the university or in any way lend it his aid.

Michael Easley Beats Tom Linton.
New York, Sept. 6.—On the Manhattan Beech track Monday afternoon Michael Easley beat Tom Linton by two miles and 500 yards in a one-hour unlimited paced race. Michael covered 33 1-3 miles. Linton stopped riding in the thirty-first mile.

IS IT CURABLE?

A Question Often Asked by Those Afflicted with Piles.

Is a strained joint curable? Is local inflammation curable? Of course, if properly treated. So is piles.

People become afflicted with piles and ask some old "cronic" who has always persisted in the wrong treatment and naturally he discourages them by telling them that their case is hopeless.

They in turn discourage others, and thus a disease that can in every case be cured by careful and skillful handling is allowed to sap the energy of thousands who might free themselves of the trouble in a few days.

Pyramid Pile Cure will cure the most aggravated case of hemorrhoids in an astonishingly short time. It relieves the congested parts, reduces the tumors instantly no matter how large, allays the inflammation and stops the aching or itching at once.

Thousands who have resorted to expensive surgical treatment have been cured by the Pyramid Pile Cure—in a number of instances persons who had spent months in a hospital under a specialist.

It is a remedy that none need fear to apply even to the most aggravated, swollen and inflamed hemorrhoidal tumors.

If you are afflicted with this stubborn disease you can master it and master it quickly.

This remedy is no longer an experiment, but a medical certainty. It is manufactured by the Pyramid Pile Co. of Marshall, Mich.

Druggists sell it at 50 cents per box. It is becoming the most popular pile cure the country has ever known, and druggists everywhere are ordering it for their customers.

For Universal Peace.

Berlin, Sept. 6.—The Cologne Gazette says it is improbable that Russia will undertake to lay her disarmament plan before the proposed conference in its entirety. The main question is likely to be how international complications can best be brought to a peaceful termination and, in the second place, whether an international arbitration tribunal is contemplated or whether one will assemble only in emergencies requiring such a measure to confer as to partial disarmament on the part of each state.

LATE NEWS BY TELEGRAPH.

VETERANS ARE WELCOMED.

Cincinnati Honors the Aged Wearers of the Blue.

HAVE FREEDOM OF THE CITY.

Immense Crowd at the Annual Encampment of the G. A. R.—Col. Sexton of Chicago a Candidate for Commander-in-Chief.

Cincinnati, Sept. 6.—The queen city of the west has welcomed the hosts of valor for their annual reunion. From all parts of the country the men of the '60s are here. The city belongs to the comrades. Nothing is too good for them.

So dense was the crowd that it poured through the gates from the incoming trains Monday that it was with difficulty that a person could move at all. A conservative estimate shows that 12,900 visitors arrived in Cincinnati Sunday and more than 50,000 Monday.

Col. James A. Sexton of Chicago was one of the first candidates for commander-in-chief to arrive. He said he came with the support of Illinois and many western states, and believed he would be elected. Of his rival candidate, Mack, he said:

"Ohio can't have both the senior vice-commander and the commander-in-chief, and in view of this our people don't believe Mack's candidacy is quite proper. I don't think Mack will find much favor when election time comes. Shaw will be my keenest competitor, and I think the election will lie between him and myself."

"For ten years my Illinois comrades have urged me to run for the office of commander-in-chief. Finally I consented to run. At that time I was of the opinion I would have a clear field. Later I learned I would have opposition. However, now that I am in the fight I am in it to win."

Commander-in-Chief Gobin came from Camp Alger via Camp Meade and has leave of absence for six days. He was accompanied by the following members of his staff: Gen. Thomas J. Stewart, Maj. Charles Williams, Col. Charles Burrows, Col. J. H. Holcomb, Col. John P. Lovett, Col. R. R. Beath and others. Gen. Gobin and staff arrived while the big Labor day parade was in progress, and he was enthusiastically greeted all along the line from the Pennsylvania depot to the Grand hotel.

The women are largely represented at the present encampment and there is the usual rivalry between the women of the G. A. R. and the Woman's Relief Corps. The business sessions of their respective orders will not begin until the encampment opens Thursday morning.

Meantime elaborate programs have been arranged by the women of this city and of adjoining cities in Kentucky for their entertainment during the week.

The executive council of the national board of administration of the G. A. R. met Monday and appointed a committee to audit the accounts and report to the full council tomorrow. The business of the commander-in-chief and his staff was found in complete order. No new business was brought forward.

The contest for the location of the next encampment seems to be between Philadelphia, Kansas City and Denver, but the canvass has not proceeded sufficiently to indicate as yet which candidate for commander-in-chief or which location for the next encampment is in the lead.

Country's Field of Wheat.

New York, Sept. 6.—The wheat crop of 1898 is not quite up to promise, according to the report of the American Agriculturist, which will appear in the issue of Sept. 10. But with full allowance for all disappointment the fact remains that the crop this year is the largest on record. The reported rate of yield in winter wheat is 14.8 bushels and in spring wheat 15.4 bushels. The final crop results will appear next month, but the American Agriculturist says that it may not be amiss to note that if the present rate of yield indicated shall be maintained the total production of winter wheat will be rather under 400,000,000 bushels and spring wheat fully 300,000,000 bushels, subject to modification next month.

Did Not Write to Dalzell.

Washington, Sept. 6.—A dispatch from Columbus, Ohio, says that ex-Secretary John Sherman has written to Private Dalzell of Ohio that he will accept if nominated for governor. To a reporter Mr. Sherman said he had not written such a letter. "What is the use," he added, "of saying anything a year in advance of the campaign? There is no occasion for me to say at this time whether I would or would not accept a nomination."

Kansas Wheat for England.

Topeka, Kan., Sept. 6.—The Santa Fe shipped Monday from Topeka 725 tons of Kansas wheat to Galveston, from where it will be shipped by water to Liverpool for European markets. This is the first grain movement of the year and the indications are that a large proportion of the Kansas crop will reach foreign markets.

BASEBALL REPORT.

Games Played Yesterday in the Various Leagues.

An even break was all that Chicago could get yesterday, and that was all most of the clubs pulled out. Boston was the only team to win twice, having Washington as an opponent, and its double victory pushed it once more to the top. Cincinnati took fourteen innings to lose the first game, and then got away with a five-inning affair for the second. Philadelphia, letting slip its morning game in the final innings, came back at Baltimore and pulled out the afternoon contest with five runs in the ninth. Brooklyn got the afternoon game from New York. St. Louis took the one game played with Louisville.

Whaling Fleet Sunk.

Seattle, Wash., Sept. 6.—The startling but unconfirmed news that the entire whaling fleet ice-bound near Point Barrow had been crushed in the ice, with one exception, was brought to Seattle by the steamer Utopia. The news had been brought to Juneau from Unalakleet by the Pacific Steam Whaling company's steamer Wolcott. Her officers claimed to have learned the facts from one of the government stations at the north. The whaler Belvidere, it is known, got out of the ice and has reached Port Clarence. She reported the whalers' position safe. According to the story told by the Wolcott officers all five of the vessels remained at Point Barrow when the Belvidere got away have been sunk since then. The crews on board escaped.

Germany's Demand of Uncle Sam.

Berlin, Sept. 6.—The government, through Dr. von Holleben, German ambassador to the United States, has demanded that the same tariff decreases granted France in the recent treaty shall be accorded Germany, under the "most favored nation" clause. A strong reply by John A. Kasson, special reciprocity commissioner of the United States, refuting the claim, has been presented to Dr. von Holleben and a copy of it has arrived here. America contends that the "most favored nation" clause does not apply. Germany claims that the treaty of 1828, whose terms include the clause, is still valid.

McKinley to Name Commissioners.

Washington, Sept. 6.—One of the first matters to which the president is now expected to give his attention is the selection of nine members of the non-partisan commission which under the act of congress of June 18 is to collate information and to consider and recommend legislation to meet the problems presented by labor, agriculture and capital. This body is to consist of nineteen persons, five of whom are to be members of the senate, five of the house and "nine other persons," who shall fairly represent the different industries and employments. The senators and representatives already have been appointed.

Storm Causes a Wreck.

LaPorte, Ind., Sept. 6.—The heavy rains of Sunday night washed sand to the depth of eight inches on the Lake Erie & Western tracks at Goul cut, ten miles north of this city, and a special train crowded with excursionists returning from Indianapolis was derailed by the obstruction. The engine turned on its side and the baggage car and one coach rolled into the ditch. Baggage man William Beyers had his collar bone broken and was badly cut. Harvey Williams, the engineer, was severely cut about the head. Not a passenger was hurt.

Town Batteries Mustered Out.

Des Moines, Iowa, Sept. 6.—Monday Paymaster Monagan of Omaha paid off the Fifth and Sixth Iowa batteries that have been in Camp McKinley for two months. Then the men were given their discharges from the service of Uncle Sam.

President Faure Decorated.

Paris, Sept. 6.—Senator Leon y Castillo, the Spanish ambassador to France, has presented to President Faure the insignia of the order of the Golden Fleece in recognition of his services in behalf of peace.

RUSSIA AND BRITAIN AGREE.

Said to Have Reached an Understanding on the Chinese Question.

London, Sept. 6.—The Daily Mail says it learns that an understanding between Russia and Great Britain on the Chinese question is practically complete. Great Britain recognizes Russia's position in Manchuria and Russia undertakes to fulfill the guarantee Great Britain has demanded. She also undertakes to cease her obstruction of the New Chang railway loan.

The Daily Mail says it understands that the Anglo-German agreement has completely settled all the differences of the two countries in Africa, and includes an arrangement which will enable Portugal to raise a loan, by means of which she will secure full control of the Delagoa Bay railway. Cecil Rhodes, in behalf of various South African interests, has already opened negotiations to buy the railway. Great Britain and Germany not offering any objections.

THOMAS F. BAYARD SINKING.

Veteran Statesman Has a Relapse and Is Unconscious.

Dedham, Mass., Sept. 6.—The condition of Thomas F. Bayard is such as to cause the gravest fears on the part of his family. Early Monday morning he had a relapse, and about 10 o'clock he became unconscious and has remained in a semi-stupor since. His family are prepared for the worst within the next twenty-four hours. Saturday night a change for the better was noticed, but Sunday morning he began to sink rapidly, and the physicians were sent for. A telegram was sent out of town to the family. Everything that could be done for the aged statesman was attended to, but without immediate avail, for he gradually sank into unconsciousness. All attempts to bring him out of a semi-stupor have failed.

Spanish Cortes Meets.

Madrid, Sept. 6.—The cortes opened Monday, and, contrary to general expectation, small interest was shown in the proceedings. The public galleries were densely crowded, but those occupying them were silent.

In the senate Prime Minister Sagasta read a bill authorizing the government to conclude peace with the United States and also authorizing the alienation of territory. Senator Sagasta read the bill with emotion.

He said that the immense superiority of the Americans deprived the country of means of defense. The destruction of the squadrons compelled Spain to seek peace and necessitated the acceptance of the dismemberment of the colonies proposed by the United States.

He asked the senate to discuss the bill at secret sittings. Senator Rivera vainly attempted to protest, and the president ordered the galleries cleared.

President McKinley Home.

Washington, Sept. 6.—President McKinley returned to Washington this morning. He will remain here until he has given instructions to the peace commissioners, and will then take a more extended holiday, probably in the West, visiting Chicago and Omaha before he returns.

It is not definitely known whether Justice White has accepted a place on the peace commission or not. His latest interviews were with the president and Secretary Day in Cleveland last week and nothing is known here regarding those interviews.

TROOPS MAY NOT PARADE.

Question Is Said to Rest with Gen. Miles.

NO ORDERS HAVE BEEN ISSUED

The Commanding General Will Be Governed in the Matter by the Command of the Soldiers Under His Command.

Washington, Sept. 6.—Whether Gen. Miles' troops will parade in New York on their return from Porto Rico will depend upon Gen. Miles himself, according to Adj.-Gen. Corbin. Asked for a statement as to the facts about the much-discussed parade, Gen. Corbin said:

"The question has never been raised in any form by Gen. Miles, nor by anyone else, except by the newspapers who want a parade. Consequently there have been no orders issued by the war department for or against a parade, or in any manner touching on the subject."

"If Gen. Miles want to march his troops through the city he can do it I suppose. A colonel has authority to march his regiment on parade when he wants to do so, and a major general can order a parade of his troops when he thinks it desirable and proper. When Gen. Miles returns he will doubtless be governed in the consideration of this question, if it ever occurs to him, by the condition of his men and by the circumstances of the case."

NEAR TO SAN JUAN.

Gen. Brooke Close to the Porto Rican Capital.

San Juan de Porto Rico, Sept. 6.—Maj.-Gen. John R. Brooke, his staff and escort have completed two-thirds of their journey across the island toward this city. The march has been like a march through a friendly territory.

On Saturday Gen. Brooke stopped at Cayey. Sunday he reached Aguas, twenty miles from here. Monday afternoon he entered Rio Piedras, one of the aristocratic suburbs of San Juan, where he will establish his headquarters. The column, though small, is imposing, and is making a deep impression.

Furloughs for Indiana Men.

Indianapolis, Ind., Sept. 6.—The One Hundred and Fifty-Seventh Indiana regiment Monday began taking an account of property preparatory to the furloughing of the officers and men. Lieut. J. C. Waterman, the mustering officer, found he had much work before him, as the officers and men admitted that they had been negligent about keeping an account of property issued to them. The sick list of the regiment has increased since it reached home, but the physicians do not believe there will be any more deaths.

Three Deaths at Santiago.

Washington, Sept. 6.—Gen. Lawton's report, received by the war department last night, concerning the health conditions of the American forces at Santiago, follows:

"Santiago, Sept. 5, 1898.—Adjutant General, Washington: Total sick, 240; total fever, 185; total new cases fever, 12; total returned to duty, 17. Deaths, 3."

Leaving Camp Joe Wheeler.

Huntsville, Ala., Sept. 6.—When the general shake-up is over four regiments will be left at Camp Joe Wheeler. Four will leave right away. Those to go are the First Ohio cavalry, the Third Ohio infantry, Third Pennsylvania and Fifth Maryland.

Fifth Illinois on Its Way Home.

Lexington, Ky., Sept. 6.—Monday afternoon at 2 o'clock the Fifth Illinois left Lexington for Springfield. The train was in three sections. There were twenty-three members of the regiment in the division hospital.

Seventh Starts Wednesday.

Camp Meade, Middletown, Pa., Sept. 6.—Col. Marcus Kavanagh has received orders changing the time of the departure of the Seventh Illinois regiment for Chicago from Tuesday until Wednesday evening.

Plan for State Campaign.

Indianapolis, Sept. 6.—Representative republicans are here to attend a conference of the state central committee and the subordinate committees tomorrow, at which the work of the campaign will be mapped out and arrangements made for the formal opening throughout the state. It is the purpose to have speaking in every county seat on the same day, and following the usual opening the county chairman will arrange for meetings in all the school districts. The party is planning the campaign along lines that will bring all the questions before the people and speeches will be made in every school district in the state.

Jerry Simpson Very Ill.

Topeka, Kan., Sept. 6.—Congressman Jerry Simpson delivered a speech Saturday night and was immediately thereafter taken ill. His condition was not regarded as serious until Monday, when it was discovered that he had a severe attack of fever, which, owing to his health, injured by constant campaigning for several weeks may prove serious.

Bryan's Men Must Remain.

Washington, Sept. 6.—No request has been received at the war department for the immediate muster out of Col. Bryan's regiment, the Third Nebraska. It is also said that if such a request was made it could not be complied with, because the quota for Nebraska to be mustered out has been filled.

Democrats Carry Arkansas.

Little Rock, Ark., Sept. 6.—Arkansas on Monday elected a full set of state officers, 100 members of the lower house of the legislature, sixteen state senators and local officers in each of the seventy-five counties and voted on the adoption of two important constitutional amendments, as well as the question of the liquor license in the different counties. The democratic state ticket, headed by Dan W. Jones, is undoubtedly elected.

Labor Strikes at Manila.

Manila, Sept. 6.—Several labor strikes are in progress here, arising from demands for excessive wages, which demands are based on the concessions made by the United States authorities at the beginning of the war, when exigencies compelled compliance. One result of the strikes is that the tramways have stopped running.

How Far Will a Dollar Go?

This is the great every-day problem with buyers in every line.

You will never know how far you can make your dollars go for

Lumber and Building Material . . .

Until you bring them here. More people have found this out the past year than in any previous year, and the result is these are very busy times with us. Our trade has never been so large, and by extending our force and working over-time, we have met every demand promptly. These happy conditions may be partially due to the general revival of business, but the greatest agency has been the fact that the people are learning that our material and work are better and cheaper. All we ask is a proportionate growth during 1898, and we expect it. It will be to your advantage to help the increase along.

Poplar, Spruce, Hemlock, Cypress, all kinds of Pine, Sash, Mill Work, Stair Rails, Doors, Sawings, Turnings, Newels, Balustrades, Brackets, Mouldings, Blinds, Etc., Etc.
